Course Schedule UC2F1611IT(FC)

ASIA PACIFIC UNIVERSITY OF TECHNOLOGY & INNOVATION - APU

BSc. (Hons.) in Information Technology, with specialism in Forensic Computing

2017

	December				January					February				March				April				May					June				July					August				September				October					November				December			
	28	5	12	19	26	2	9	16	23	30	6	13	20	27	6	13	20	27	3	10	17	24	1	8	15	22	29	5	12	19	26	3	10	17	24	31	7	14	21	28	4	11	18	25	2	9	16	23	30	6	13	20	27	4	11	18	25
Orientation																																																										
Intelectual Property, Ethic and Legal Issues (L)																				B	E	E																																				
Intelectual Property, Ethic and Legal Issues (T)																				B																																							
Object Oriented Development With Java (L)																				B	E	E																																				
Object Oriented Development With Java (LAB)																				B																																							
Object Oriented Development With Java (T)																				B																																							
Probability & Statistical Modeling (L)																				B	E	E																																				
Probability & Statistical Modeling (T)																				B																																							
Professional Enterprise Development (L)																				B	E	E																																				
Professional Enterprise Development (T)																				B																																							
System Development Methods (L)																				B	E	E																																				
System Development Methods (T)																				B																																							
System Programming And Computer Control (L)																				B	E	E																																				
System Programming And Computer Control (LAB)																				B																																							
System Programming And Computer Control (T)																				B																																							
Bank Draft																																																										
Exam Briefing																																																										
Exam Docket																																																										
Co-Curriculum																																																										
Creativity & Innovation (T)																																										B	E	E															
Creativity & Innovation (L)																																										B																
Computer System Low Level Techniques (L)																																										B	E	E															
Computer System Low Level Techniques (L)																																										B																
Data Recovery Tracing & Evidence Gathering (L)																																										B	E	E															
Data Recovery Tracing & Evidence Gathering (T)																																										B																
Ethical Hacking & Incidence Response (L)																																										B	E	E															
Ethical Hacking & Incidence Response (T)																																										B																
Research Methods For Computing And Technology (L)																																										B	E	E															
Research Methods For Computing And Technology (T)																																										B																
Web Applications (L)																																										B	E	E															
Web Applications (LAB)																																										B																
Progression Briefing																																																										
Internship Programme																																																										

Report Generation Date- 29/11/2016
***The schedule may be subject to revision**
E-Exam, B-Buffer Week
