Course Schedule UC2F1611EE(IT)

ASIA PACIFIC UNIVERSITY OF TECHNOLOGY & INNOVATION - APU

2017

	December				January					February				March				April				May					June				July					August					September				October					November				December			
	28	5	12	19	26	2	9	16	23	30	6	13	20	27	6	13	20	27	3	10	17	24	1	8	15	22	29	5	12	19	26	3	10	17	24	31	7	14	21	28	4	11	18	25	2	9	16	23	30	6	13	20	27	4	11	18	25
Orientation																																																											
Analogue Electronic (L)																				B	E	E																																					
Analogue Electronic (T)																				B																																							
Electromagnetic Field Theory (L)																				B	E	E																																					
Electromagnetic Field Theory (T)																				B																																							
Engineering Mathematics 3 (L)																				B	E	E																																					
Engineering Mathematics 3 (T)																				B																																							
Introduction to Electrical System (L)																				B	E	E																																					
Introduction to Electrical System (T)																				B																																							
Object Oriented Development With Java (L)																				B	E	E																																					
Object Oriented Development With Java (T)																				B																																							
Object Oriented Development With Java (LAB																				B																																							
Bank Draft																																																											
Exam Briefing																																																											
Exam Docket																																																											
Co-Curriculum																																																											
Digital Electronic (L)																																									B	E	E																	
Digital Electronic (T)																																									B																	
Engineering Software and Application (L)																																									B	E	E																	
Engineering Software and Application (T)																																									B																	
Human Computer Interaction (L)																																									B	E	E																	
Human Computer Interaction (T)																																									B																	
Programming Concepts in C++ (L)																																									B	E	E
